

ANDRES FELIPE QUEVEDO

APPRENTICE

Technologist apprentice in Software Analysis and Development with a great interest in the development of web and mobile applications. I have a great ability to adapt to all types of environments and always contribute the best of me. I am characterized by my ease in teamwork and my enthusiasm for learning and developing my skills. Looking for a job opportunity in which to gain more experience.

EXPERIENCE

DATA ANALYST

Amazon

Present

- Led the collection and analysis of large data sets to inform strategic decisions.
- I developed predictive and machine learning models.
- Participated in innovation projects, providing data-based solutions for specific business challenges.

FRONTEND DEVELOPER

Microsoft Corporation

2020

- Converted interface designs into code (HTML, CSS, JavaScript), prioritizing usability and compatibility.
- Optimized performance using techniques such as lazy loading and will collaborate with designers to improve user experience..
- Integrated APIs, used frameworks like React.js, and proactive resolution of interface issues during development.

ANALYSIS CONTENT

Really Great Company

2010 - 2014

- Database administration and website design
- Built the logic for a streamlined ad-serving platform that scaled
- Educational institutions and online classroom management
